- ✓ Put the topic sentence or the main idea in the first sentence. Some writers prefer placing it in the middle and a few experienced writers put them in the last line.
- ✓ There is only one main idea in a paragraph. The remaining sentences function as supported sentences in order to give more detail explanation about the topic sentence.
- ✓ Effective paragraph normally consists of 50 to 150 words and at least comprises three sentences.
- ✓ It is recommended to apply simple sentences (12 – 20 words) rather than long ones.
