

Edukasi Kesehatan

Windows Movie Maker

Objectives

- Create a small video
- Download a video from a video camera to a computer

Key things to think about when recording your video

- Audio
- Lighting Techniques
- Framing
- Focus

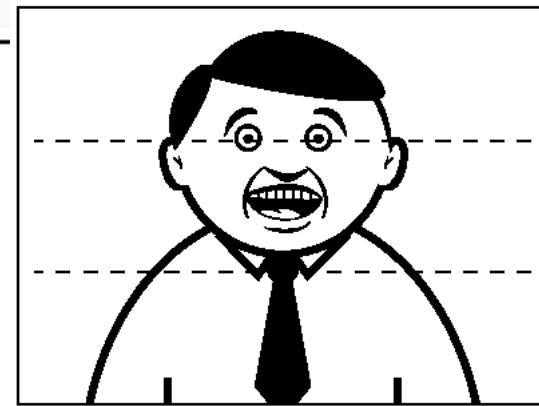

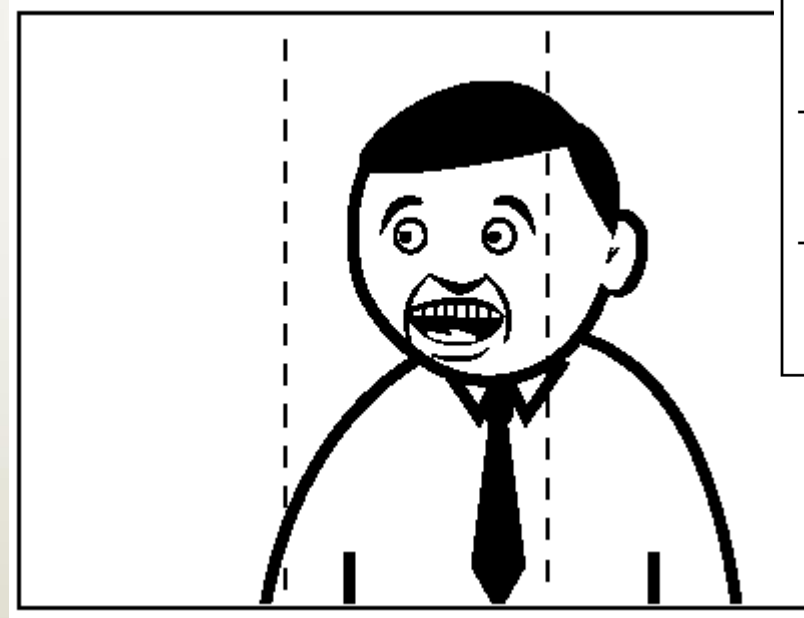

Audio Considerations

- Built-in Microphone is usually not the best
- Alternatives
 - External Microphone
 - Lavalier Microphone
 - Omni directional Microphone
 - Unidirectional Microphone

Lighting Techniques

- Too much light - video washed out
- Too little light - video too grainy
- Bright light behind the subject will cause the subject to be shadowed
- 3 Point Lighting is ideal
 - Key Light
 - Back Light
 - Fill Light

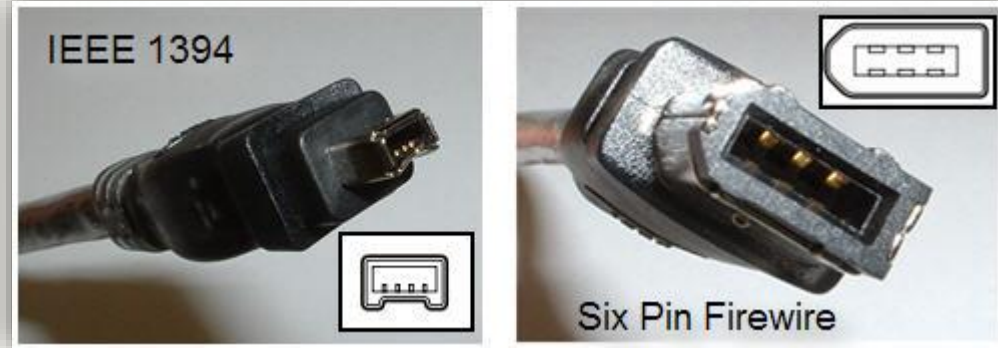

Framing

Focus

- Auto-focus can cause the focus of the camera focus to shift in low light or when movement appears in the background.
- Use a Tripod to avoid shaking.
- Avoid using the zoom feature.
- Avoid moving backgrounds
 - Cars
 - Trees blowing in the wind
 - Crowds of people
 - Fountains
 - Computer screens/TV's

Capture from Video Device

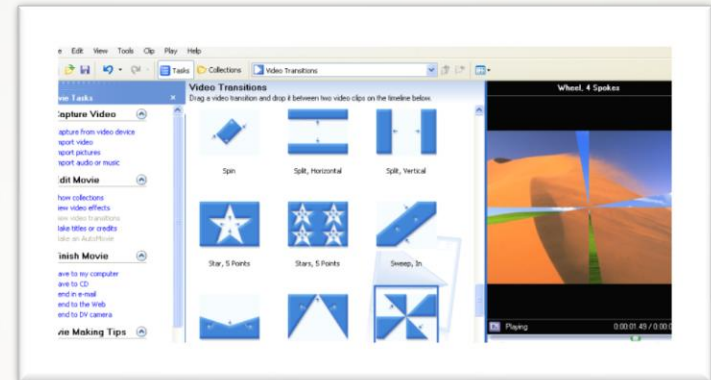

Windows Movie Maker

Editing and Enhancing your Movie

Objectives

- Add transitions and special effects to your movie
- Add titles and credits to your movie
- Add music to your movie
- Add narration to your movie
- Save your final movie for distribution

Video Transitions

- Controls how your movie plays from one video clip or picture to the next.
- You can add a transition between two pictures, video clips, titles, or a combination of these.

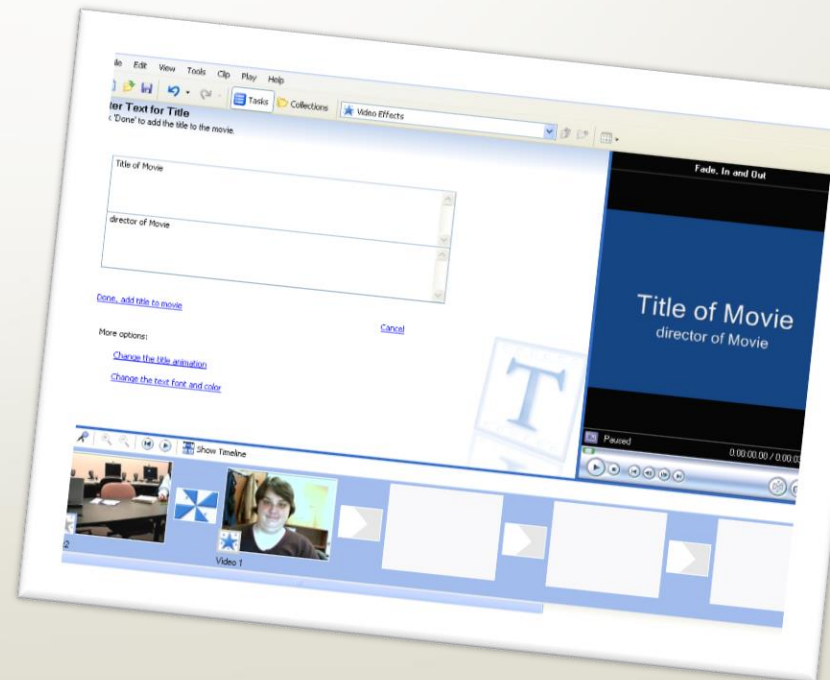

Video Effects

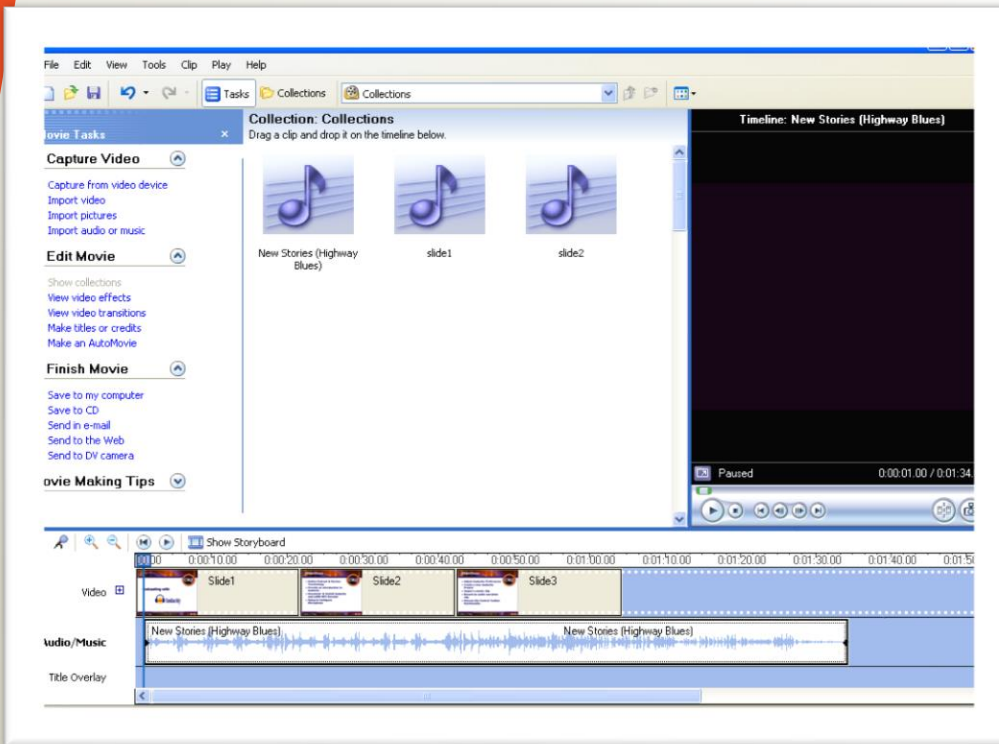

- Determines how a video clip, picture or title displays in your project and final movie.
- Allow you to add special effects to your movie.
- An effect is applied for the entire duration that the video clip, picture or title displays in your movie.

Titles and Credits

- Text based information
 - Title of the Movie
 - Name of Movie Creator
 - Date

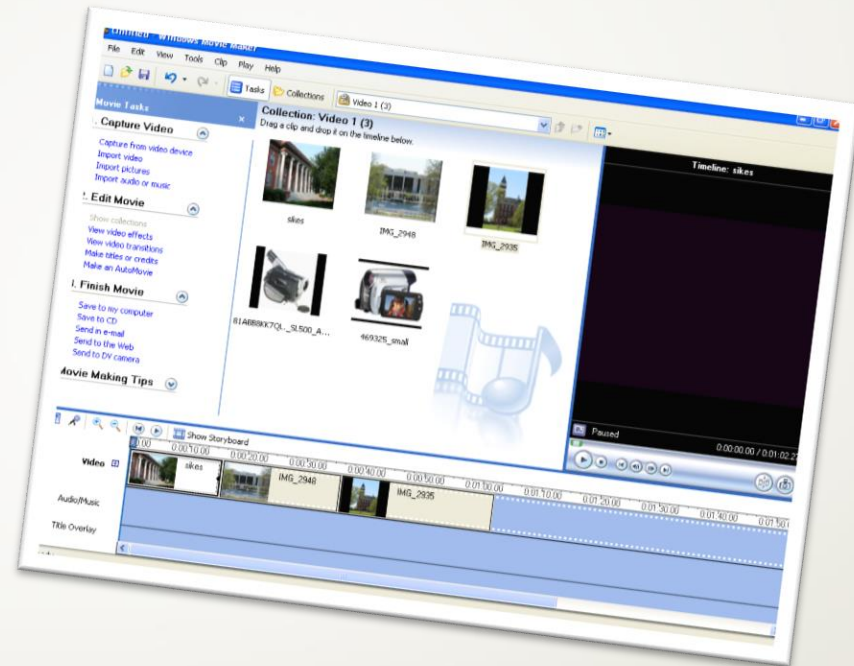

Import Music

- Supported File Formats:
 - .aif, .aifc, .aiff, .asf, .au, .mp2, .mp3, .mpa, .snd, .wav, and .wma

Add Pictures

- Supported File Types:
 - .bmp, .dib, .emf, .gif, .jfif, .jpe, .jpeg, .jpg, .png, .tif, .tiff, and .wmf

Import Additional Video

- Supported File Types:

- .asf, .avi, .m1v, .mp2, .mp2v, .mpe, .mpeg, .mpg, .mpv2, .wm, and .wmv

Add Narration to Movie

Narrate Timeline
Drag the playback indicator on the timeline to an empty point on the Audio/Music track, click Start Narration, and begin your narration.

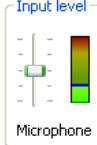

Steps:

1.
2.
